HUSQVARNA 536LiPT5

Telescopic battery pole saw for professionals, with 5m telescopic reach and performance that surpasses petrol equivalents. Maximum performance and durability with low weight, excellent ergonomics and quiet operation for use in any location at any time of day.

Li-ion power
The Li-ion battery provides long lasting power and top class performance.

savE™
Choose savE™ for maximum runtime.

Intuitive key pad
The key pad is very easy to operate.

Efficient brushless motor
Our in-house developed, advanced brushless motor is 25 % more efficient than a standard brush motor. This means that the motor provides a high and consistent torque.

Petrol performance
The 36V Li-ion battery back provides an equally high power, reliable operation and long lifetime as petrol-driven machines – without any direct emissions. Also, you get as much done on a single charge, as you would manage on one tank of petrol.

Flip-up tank cap
The flip-up tank cap is easy to open.

Additional features

High chain speed
High chain speed for fast, smooth cutting

Telescopic tube
The tube has a telescopic function for quick cutting height adjustment

Silent operation
The noise level from our battery machines are up to 13 dB(A) lower than a petrol machine – which is a huge difference. A reduction of 3 dB(A) is usually perceived as a halving of the noise level. This makes work a lot more pleasant for you – and also allows you to work in the most public of settings.

Gear up for nonstop operation
Our battery accessories allow you to carry on and get the job done as quickly and efficiently as possible.

Ergonomic handle
Ergonomically shaped handle for greater comfort and easy access to the controls.

One battery fits all
The 36V Li-ion battery pack is designed for demanding, long lasting professional use. It fits all our handheld machines, which allows you to quickly switch the same battery between a trimmer, blower, chainsaw and hedge trimmer and keep working.

Low maintenance
No refilling of fuel, less parts to serve and an electronically controlled drive system means less downtime and low operation costs.

Technical data

Battery

Technical data

Battery type	Li-Ion
Battery voltage	36 V
Motor type	BLDC (brushless)
Vibration & noise data	
Equivalent vibration level (ahv, eq) front / rear handle	1/1.2 m/s²
Sound pressure level at operators ear	83 dB(A)
Sound power level, guaranteed (LWA)	98 dB(A)
Cutting equipment	
Chain pitch	1/4"
Recommended bar length, min-max	25-25 cm / 9.84"-9.84"
Chain speed at max power	20 m/s / 65.62 fts
Overall dimensions	
Weight (excl. battery and cutting equipment)	4.9 kg / 10.8 lbs
Logistical Data	
Product size, LxWxH	2600x181x189 mm / 114.41x7.13x7.44 inch

Standard equipment

575 84 22-58 - Special bars

Bars for pole saws and other chain saws

501 84 40-58 - Saw chain H00 1/4" 1,3 mm

An extremely lightweight chain for smooth, clean cuts with Micro Chisel cutters.

Accessories

967 24 19-01
Battery BLi150

The Li-ion battery provides long lasting power and top class performance.

966 77 59-01
BLi520X

The large Li-ion battery provides long lasting power and top class performance, and allows you to work efficiently with fewer breaks for changing battery. Wide, padded straps and hip belt make the harness comfortable to wear even through long shifts. Several adjustment possibilities to fit both tall and short users. The battery adapter fits all Husqvarna handheld battery products.
